

BREEZE

Acoustic ceilings designed to bring happiness, rhythm, and a feel-good factor into open spaces.

Inspired by Nature

Breeze combines sculptural forms, acoustic comfort, and a floating design to create ceilings that feel lighter, calmer, and lovely to look at.

A Ceiling That Moves the Space

Its curved forms and layered rhythm help large spaces feel softer, more dynamic, and visually warm.

Acoustics from Above

Designed to reduce noise while maintaining openness across workplaces, hospitality spaces, educational setups, and public spaces.

Soft by Design

Floating forms, colour play, and organic detailing bring warmth and a stronger emotional character into spaces.

Flexible and Adaptable

Modular construction allows easy integration, scalability, maintenance, and lighting compatibility across different layouts.

Flexible configurations for different spaces and needs.

Variants

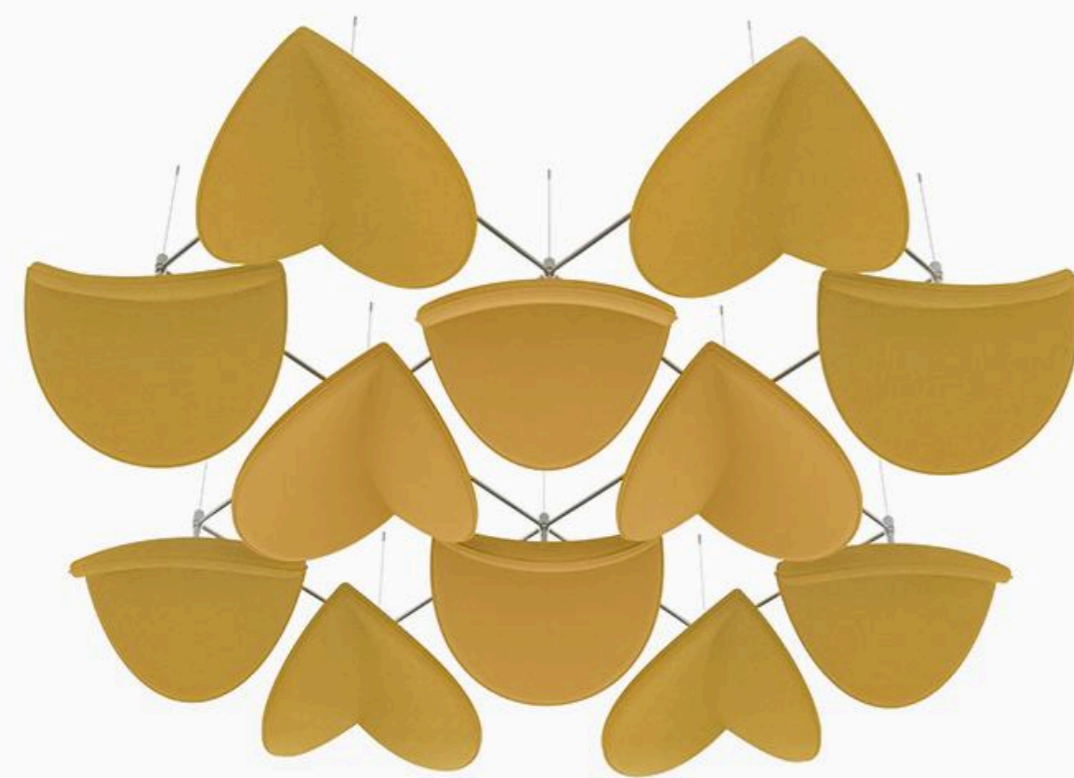

Square

Star

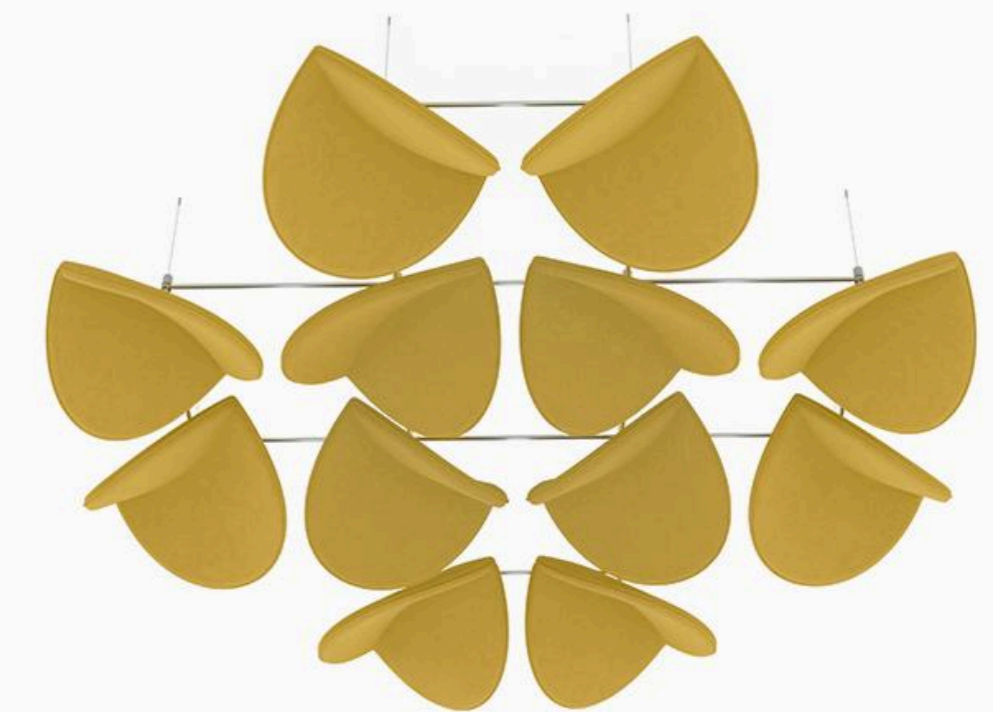

Zigzag

Cross

Hexagon

Perk

**We exist to bring happiness,
human emotion, and a good
feeling to life.**
