

PETAL

Sculptural acoustic ceilings inspired by nature and designed to transform open spaces.

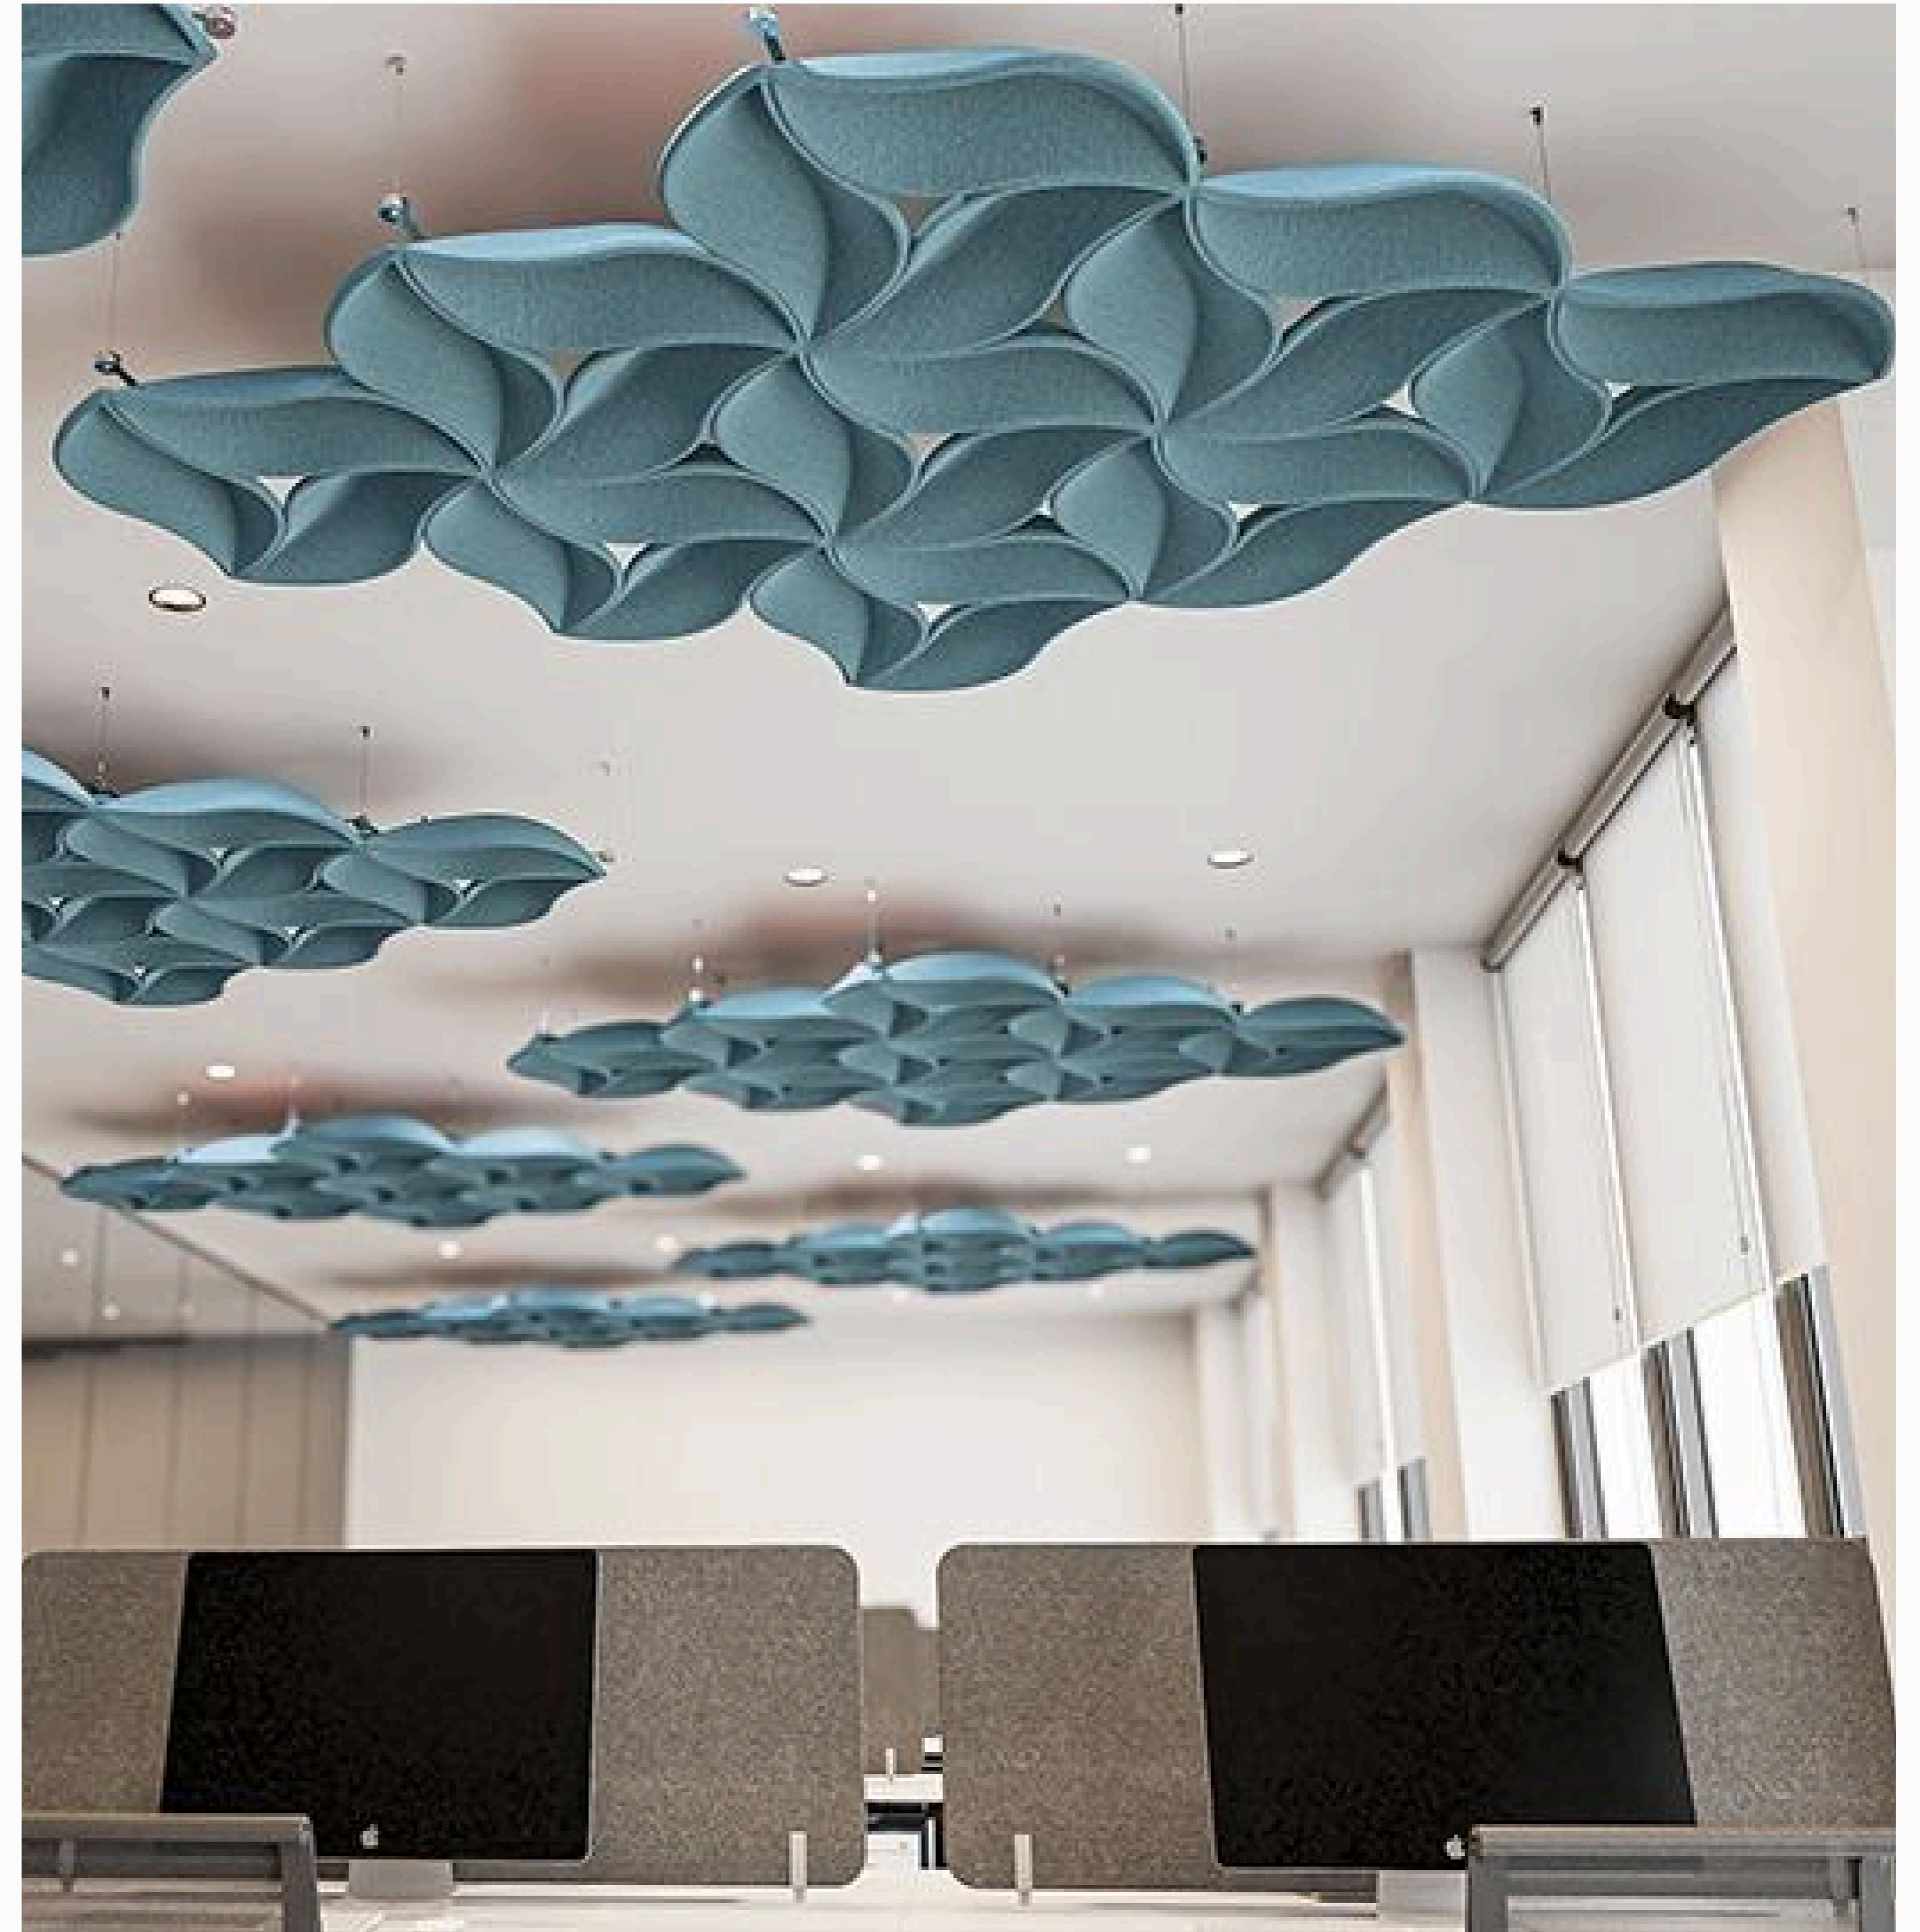

Where Acoustics Meet Emotion

Inspired by the softness and rhythm of petals, the ceiling creates a feeling of lightness and calm.

Designed to Be Experienced

Its floating forms and curved detailing help create stronger visual identity while improving acoustic comfort throughout the space.

Bring Spaces to Life

Adds movement, softness, and a more welcoming atmosphere across workplaces, hospitality settings, educational environments, and public interiors.

Flexible configurations for different spaces and needs.
