

PROJECT

| HIGHLIGHTS |

Client: Confidential

City: Chennai

Designer: M Moser Associates

Completion: 2022

Keeping the decorum of a financial institution, the client needed a workspace that depicted its authority while serving as a thriving ecosystem for its employees. The outbreak of the COVID-19 pandemic presented a key challenge while executing the project.

Our approach to the project was maximizing comfort through a minimalistic approach. This helped us tailor our products to suit the client needs and truly deliver as per their expectations within the desired timeline. We used vibrant colors to balance the neutrality of pastel colors and bring a sense of positivity to the workspace. It helped foster an environment for growth and progress.

Products used: Acoustic Walls and Ceiling Products
