

PROJECT

| HIGHLIGHTS |

Client: Confidential

City: Pune

Designer: Beyond Designs

Completion: 2020

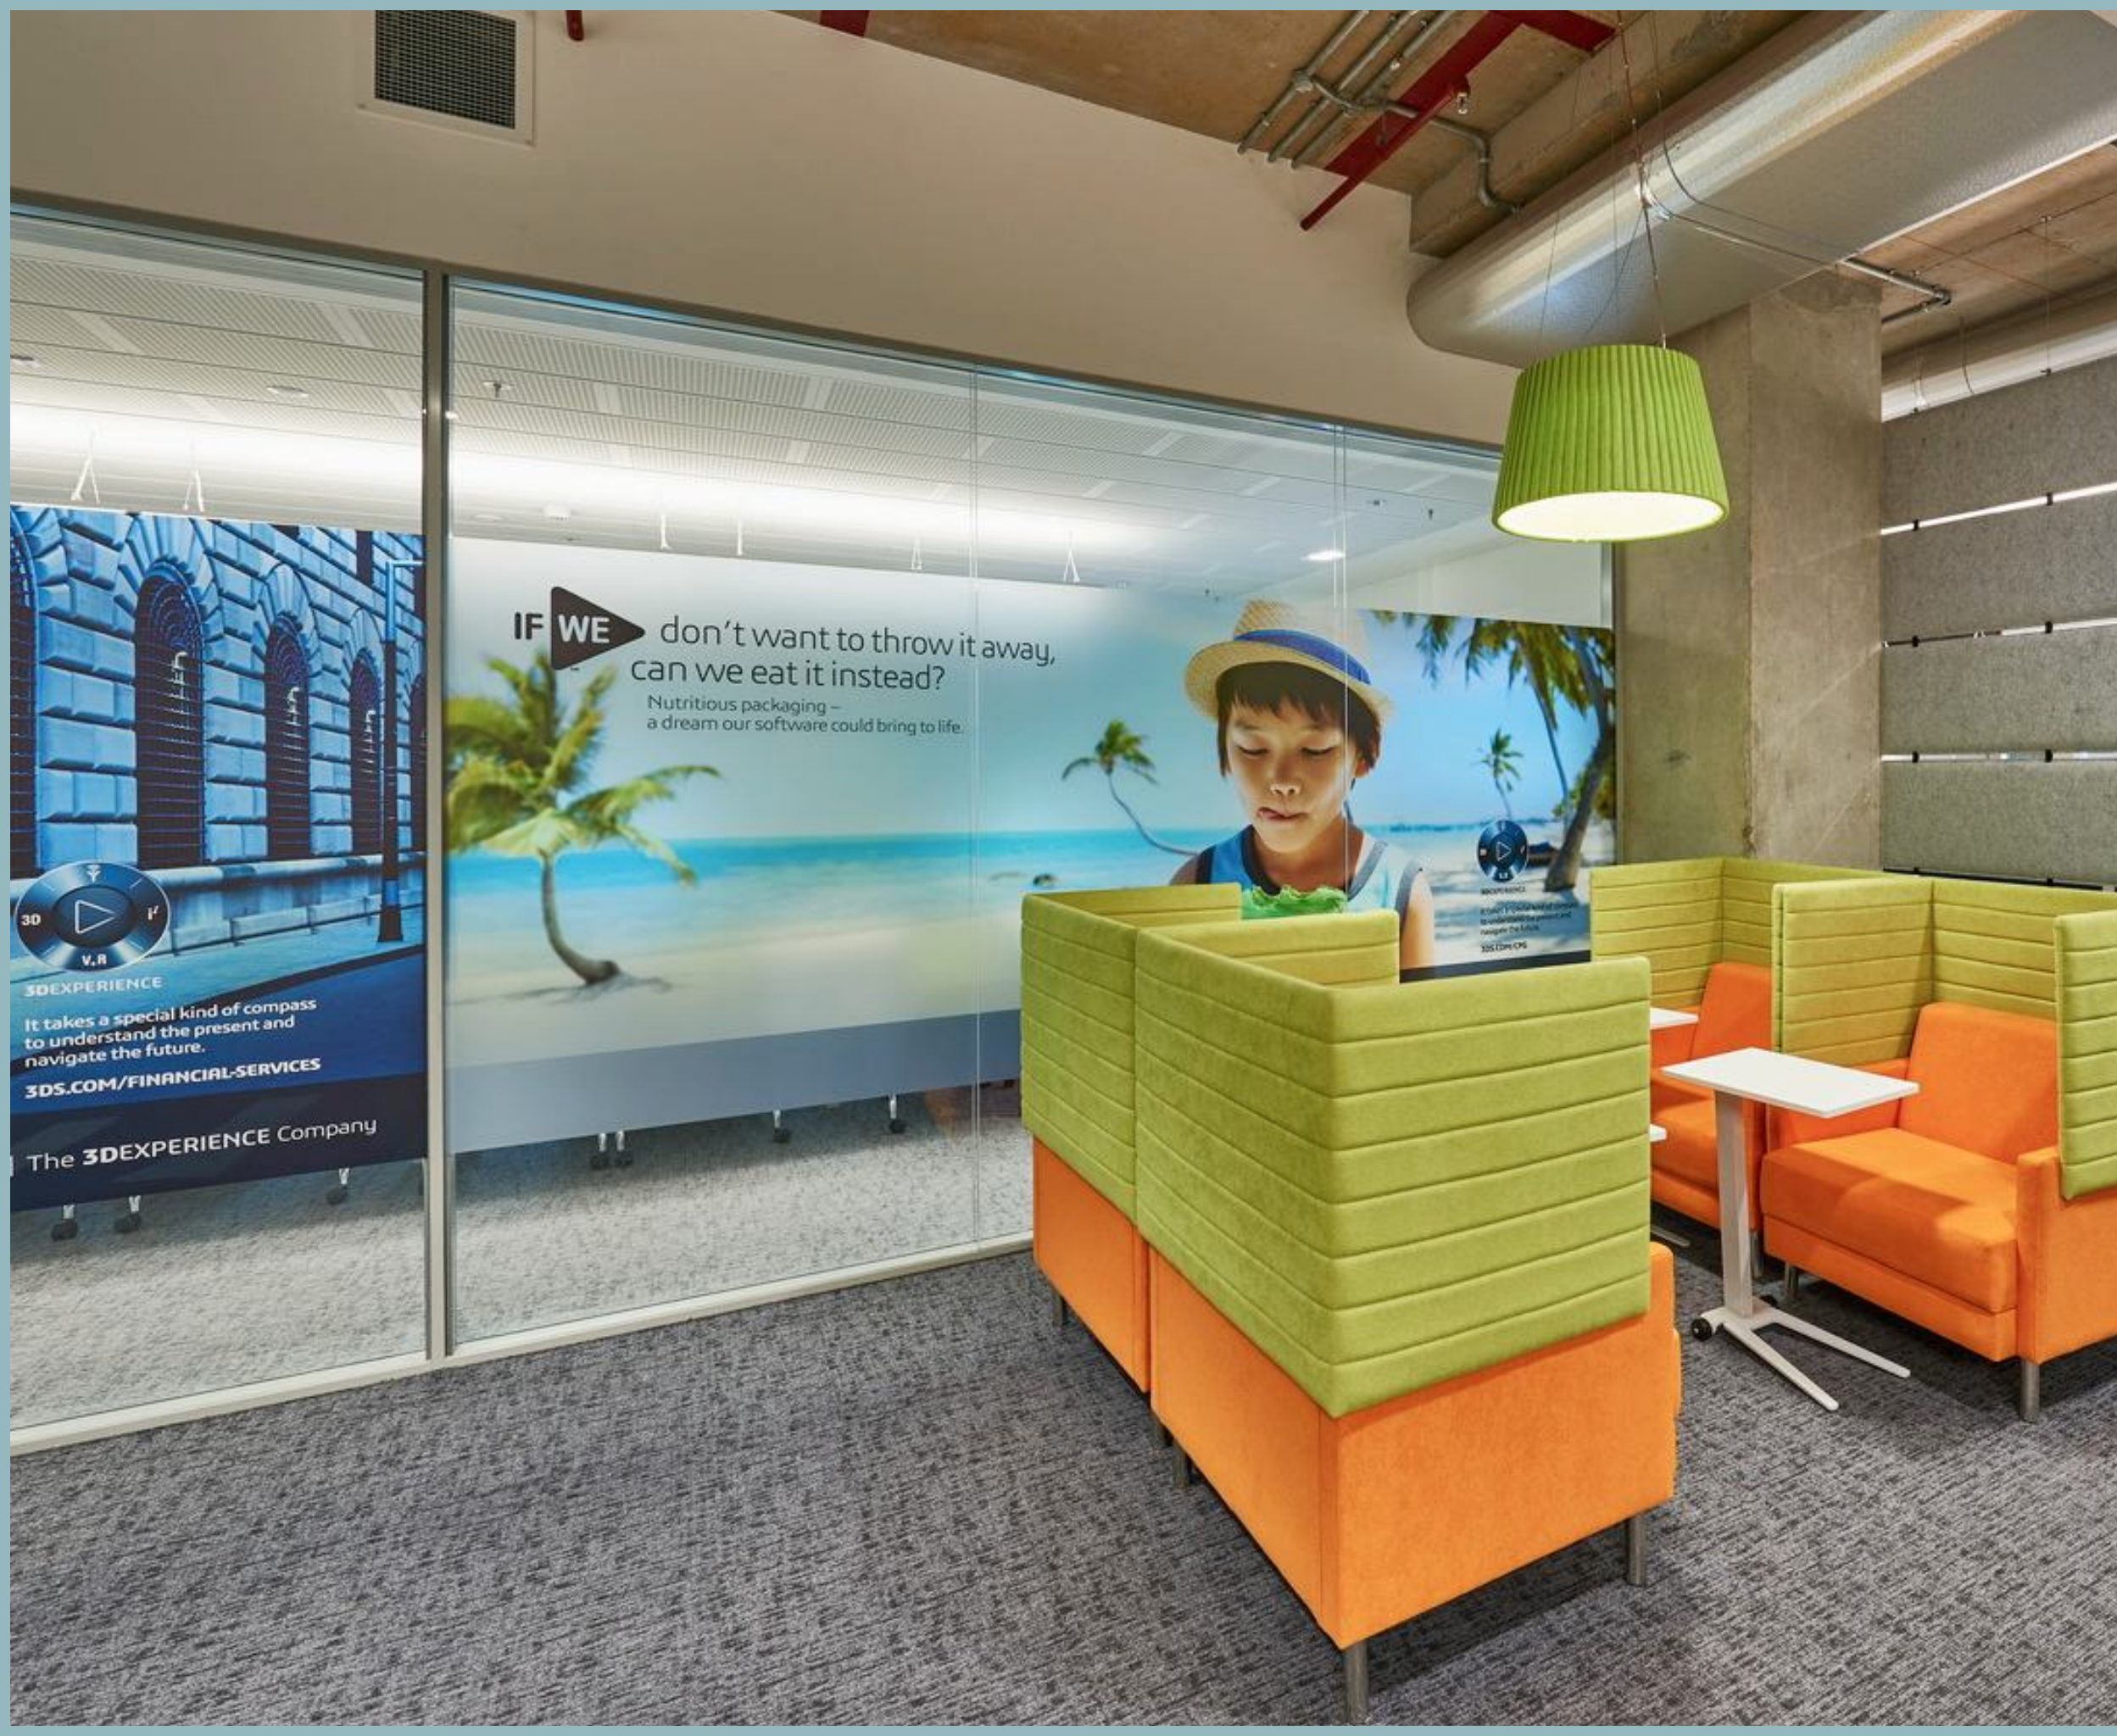

This French MNC is a leading global expert in 3D modeling technology. The company offers custom-based solutions to organizations requiring customized designs for their furniture. With their workspace, their requirement was to keep things sophisticated and timeless.

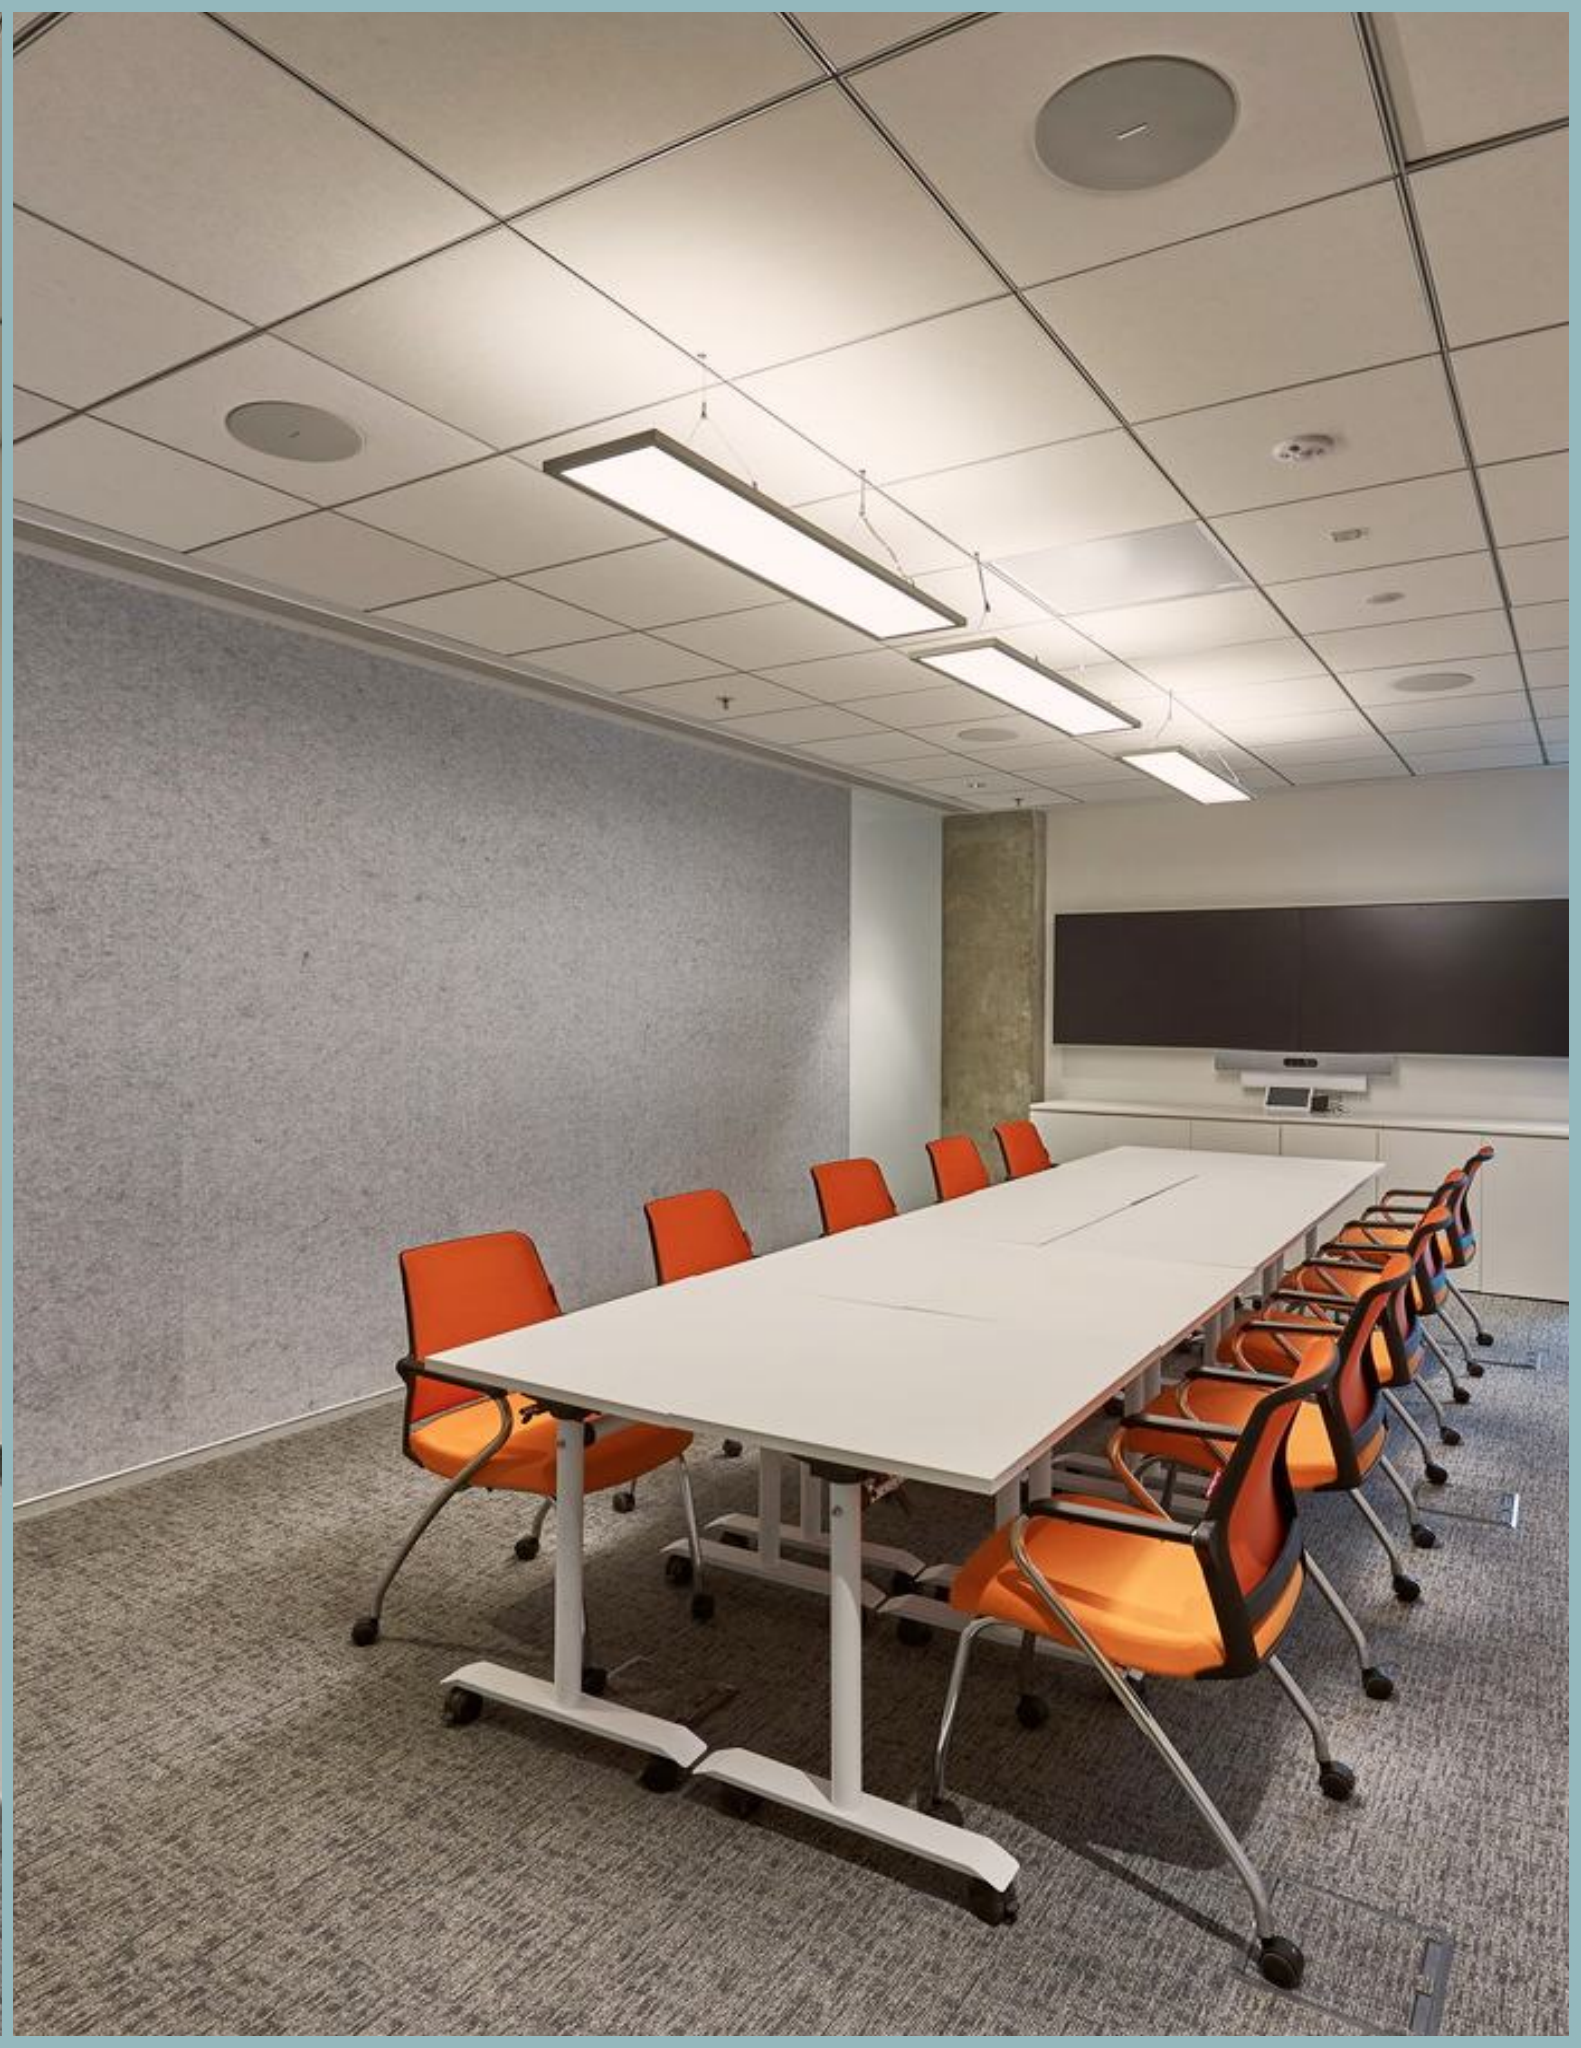

We stepped in with a minimalistic design approach that helped us create an earthy connection to their interior space. Through our solutions, we emphasized on homey colors like orange, grey, and blue. This helped actualize the feeling of joy and togetherness in the space. Further, it created the illusion of a larger space, thereby enabling more elegance in the office interiors.

Products used: Acoustics and Space dividers
