

TruAlt Bioenergy

(Energy)

We recently had the pleasure of working with TruAlt Bioenergy, a company whose commitment to sustainability aligns perfectly with our own values. Their workspace was designed around a nature-inspired, forest theme, blending eco-conscious materials with thoughtful design.

We incorporated wider fabric and felt sculpt panels to add both functionality and texture, making the space as sound-friendly as it is visually striking.

We're proud to have played a part in crafting a space where creativity, collaboration, and environmental responsibility come together seamlessly. It's not just about design; it's about making a positive impact.
